

# ETHIOPIAN STUMPS 'R US MEMBER GETS HIS PROSTHESIS BY USA MAIL

**Addis Ababa above the knee amputee Solomon Bulii contacted Stumps 'R Us Chief Stump Dan Sorkin in February of 2012 seeking help in getting an above the knee prosthetic device so he could return to the job market as a fully functional adult.**

Dan contacted Michael Plafker at San Francisco Prosthetics with the request. Michael and Dan coordinated the shipping of the AK device in a matter of days at no cost to Mr. Bulii. After months of correspondence with Mr. Bulii and the Addis Ababa customs officials, the device was finally released to Mr. Bulii in late October of 2012. Solomon then worked with a local Ethiopian prosthetist to successfully fit the device to his residual limb.

Stumps 'R Us, electronically via WESTERN UNION, sent \$130 US to Mr. Bulii to cover the costs incurred by him for the prosthetic fitting in Ethiopia.
